

## ACCIDENT TO EYE IS RESULT CAUSED BY BROTHERS' PLAY

Eldest Son of Mr and Mrs A. Woods  
Is Shot by Bow and Arrow  
While at School

Last week, while at play in the yard of the Mayfield school, a very painful accident resulted whereby an arrow which little Frank Woods, aged ten was shooting at a mark entered the eye of his brother Donald, aged 13. The parents were immediately notified, and the little sufferer was rushed to the doctor, who advised surgical treatment. The patient was therefore taken on Wednesday evening to Edmonton, where an operation was performed upon the injured eye.

## IN FLANDERS FIELDS

(Written in France, in 1917, by Lt. Col. John McCrae in honor of the men who fought so bravely and in memory of those who lie amid the crosses.)  
In Flanders fields, the poppies blow  
Between the crosses, row on row,  
That mark our place; and in the sky  
The larks, still bravely singing, blow  
Scarce heard amid the guns below.  
We are the dead, short days ago  
We lived, felt dawn, saw sunset glow,  
Loved and were loved and now we lie  
In Flanders fields.

## SUPERVISOR WAS ON SHORT VISIT TO ILLUSTRATION FARM

Mr R. E. Everest Pays Periodical  
Inspection Trip to Farm of  
Mr George Boyd

Mr R. E. Everest, the supervisor of illustration farms for this province, is making the following report:—  
Cultural and crop work carried on upon the farm of Mr George Boyd during the past season. (In common with that general in the district) subject of adverse conditions. First and possibly of more moment than realized, was the frost of June 7th; second came the summer drought, the month of June being the low rainfall of .42 of an inch followed by an almost totally dry July, as only .14 of an inch rainfall was recorded for the last-named month.

The yields per acre of the grain and forage crops are as follows:—  
Marquis on fallow, 18 bshl.  
Marquis after wheat, 13 bshl.  
Marquis on corn ground, 13 1/2 bshl.  
Marquis on rye ground, 10 bshl.  
Russet wheat on fallow, 19 1/2 bshl.  
Red Halo on fallow, 15 bshl.  
Winty Rye, failure (winter killed).  
Banner Oats after oats, 27 1/2 bshl.  
Golden Rain Oats on fallow, 32 bshl.  
West Rye Hay, last year 1 ton.  
Ditto, ditto, 2nd year, 1 1/2 tons.  
Allaha Hay in rows, 1 ton.  
Sweet Clover Hay in rows, 3 tons.  
Sudangrass, cured, 4 tons.  
Corn, cured fodder, 4 tons.

## Pointed Paragraphs

The people who are loitering for trouble deserve all that's coming to them.

Religion is simply the way home to the Father.

Coming events cast their shadows before, but to see them one must live in the sunshine.

It isn't always the minister who weighs his words; but he preaches the heaviest sermon.

To lift one's self into a clear place of independence should be the foremost thought and effort of every young person of either sex, for girls have no more right to be useless burdens than boys. To borrow is human; to forget all about it is still more so.

## LOCAL NOTES

Mr A. G. Martin, of Edmonton, is in town for a few days visiting his relatives here.

We are glad to learn that Mrs. E. E. Prater, who was operated on in Edmonton on Monday last, is now getting it getting along nicely.

News has reached town that Dr. Fred. Pacey, who at one time was stationed at the Merchants bank here, but who has since become a full-fledged "M.D." was married in Toronto last week.

The usual childish pranks occupied the attention of the younger set in town last evening in honor of All Hallow's eve. In fact, from some of the doings to be observed this morning it would seem that the older ones got in and enjoyed the "fun" too!

Announcement is made by the girls of the C.G.I.T. class that they will be holding a sale of home-cooking and afternoon tea on Saturday, Nov. 11th. By the express wish of His Majesty the King the "two minutes of silence" will be observed at 11 a.m. on Armistice Day, November 11th, throughout the whole British empire.

## NEW BOILER AND SMOKE STACK FOR POWER PLANT

Factory is Wired To "Ship At Once"  
Installation Should Be Complete  
In About Another Month

Good News! We are now able to tell our readers that the periodical and unpleasant "shut-downs" of the power plant are soon to be a thing of the past. This week the order has gone forward for the new boiler and smoke stack, so that the two boilers can be used alternately as soon as installation is completed; this being expected in a month to six weeks.

Attention is drawn also to the fact, in another column of this issue, that the "juice" will be available on two mornings a week—Tuesdays and Wednesdays—from 7 a.m. till noon for users of electric household appliances. It is hoped by this means to obviate the overloading of the generator and to give a better all round service.

The fact of day-time service is a feature which will, no doubt, be taken full advantage of, so that the matter of using electric washers, irons, etc., will not be necessary when the power is required for lighting purposes.

The Canadian Power Farmer will answer any question pertaining to the practical operation and application of power machinery on the farm. Try it; the service is free.

## Nothing To Do With Outcome

We have amused at reading a paragraph recently in one of the metropolitan dailies to the effect that it is the duty of the newspaper as well as to its interests, to publish all the news without regard to what the editor or publisher might fancy to be its probable effects. In other words he has nothing to do with the consequences. This is an excellent theory for the editor of a city daily, who sits perched up in a little room thirteen stories above the busy world; but let our distinguished city friends try a weekly paper this theory into practice and if he does not have something to do with it he is a better sprinter than most of his consequences, it will be because brethren of the country press.

After a truly pleasant three-months holiday with relatives and friends in the east Mrs. H. P. Wainwright returned home to Wainwright on Sunday.

The L.A. of St. Andrew's church will hold their regular meeting at the home of Mrs. J. Dawson on Tuesday next, November 7th at 3 p.m. when a large attendance is hoped for.

Just now, when house heating is starting, is the dangerous time for fires. Get your property insured. See Joe Welch.

Mr E. S. Archibald, director of experimental farms for the whole Dominion government, was a visitor to town last week, and while here went over the Geo. Boyd farm, station. He expressed himself as highly satisfied with the way the station was conducted.

## Drilling Operations Commenced At Hugh Campbell No. 1 Well

British Petroleum Limited Have Now  
Finished Buildings; Work Goes  
Merrily Down Towards Oil.

CROWDS ATTEND STARTING  
For Operation of Big Drill  
When First Turned In

Mrs R. Aykroyd Turns On The Steam  
For Operation of Big Drill  
When First Turned In

The die is cast! The preliminary work is now all completed; necessary not buildings, sheds, boiler-house, etc. all erected; and now the British Petroleum Limited are actually drilling in to the bowels of the earth just six miles north of town for the liquid gold which it seems (according to all geological reports) must be below the surface.

On Thursday last, quite a constant stream of autos covered the road between the town and the well site, and although it was getting dusk before the actual steam was turned on and the big drill started, there was a fair number still left of the large crowd who gathered earlier in the day to witness Mrs. R. Aykroyd "start" or "up."

Everything went off beautifully and it was but a very short time before the derrick announced "Twenty foot down!" If the big bit keeps up the good work at this rate, it should only be but a few weeks, at the most before the news is brought to town that the well has "come in," and this is an almost certain conclusion to the operations so

## \$100,000,000 IN VICTORY BONDS ARE CONVERTED

Response to Finance Minister's  
Offer Is Distinctly  
Satisfactory

Conversions of 1922 victory bonds amount to \$100,000,000. This is the preliminary figure announced by Hon. J. A. Robb, acting minister of finance. The returns are not yet complete.

Mr. Robb stated that the response was distinctly satisfactory and well up to official expectations. Cash subscriptions were not invited the other being open only to holders of 1922 bonds. In accounting for the bonds that were not exchanged, Mr. Robb pointed out that financial institutions reported large blocks of 1922's held on short date investments by institutions whose financing calls for cash on December.

Naturally the conversion offer would not attract such holders. Another factor which should be taken into account, is that 1922 bonds carry exemption from dominion taxes, whereas the income from the new bonds will be subject to the ordinary taxation.

The redemption of the uncovered portion of the issue on December 1st, now offers no difficulty.

Mrs A. A. Taylor and family who recently arrived here from the city are now residing in the Wade house.

After a long spell of threshing in Saskatchewan, Mr. H. W. White has returned to his "native home."

Mr and Mrs R. A. Snyder were visitors to the city for a few days last week returning last Friday.

Mr J. Williams, the provincial health inspector, was in town last week end on inspection duties.

## What S.S.B. Act Scope Intended

Extension of the Soldier Settlement Act to include provision for small land holdings; sheltered employment for elderly returned men and those not 100 per cent efficient; were among the re-establishment proposals discussed by the Dominion Veterans' Alliance.

These measures will probably be urged before the royal commission on pensions when it commences the general investigation of re-establishment measures and how they can be carried out.

Other matters discussed by the Alliance included the feasibility of a housing programme, federal assistance to ex-service men in undertaking fishing, mining, and kindred industries calculated to produce 100 p.c. re-establishment. The consideration of the royal commission will also be asked for these proposals.

auspiciously started last week.

A fifteen-inch hole is being drilled, under the tallest derrick in the province of Alberta, and Messrs H. Campbell, who is in charge of operations and who has had very many years of experience in the oil drilling business and his right-hand man, "Chiffie" Deason, a widely experienced bit driller from the oilfields of Texas, are to be congratulated upon the whole undertaking.

Two new oil and gas development companies have been incorporated this week under the company names of the Edmonton Royalties, and the Alberta Realty Holdings, with head offices at Edmonton and Wainwright respectively. With regard to the last-named, which is a \$50,000 concern, a meeting was recently held in town and the first officers of the company are—

Pres.—J. G. Clark.  
Sec.—W. H. Hunt.  
Directors—Messrs. Clark & Hamilton, and Messrs. L. T. Torgeson, S. Merrick and K. Lindahl.

Another incorporation has just been ratified by the department of state in Ottawa, this being the Gladys Bell Oil and Refining company with head offices at Lethbridge. This concern is also understood to be arranging to put in a refinery plant at some point on the south of the province, and Lethbridge is spoken of as being considered a favorable location for such plant.

On Tuesday a big game of men arrived at the location of the site for the second derrick which the British Petroleum are preparing to erect. The spot chosen for this drilling being on the South-east quarter of 36-45-56, exactly six miles due east of the pre-

## Local Notes

Mrs G. Steel entertained Mr and Mrs H. Chechman and Miss J. McCloy, most at the week end.

Mr Harry Pynch and family have now moved into the Fieldhouse property on Queen Street.

Building operations are now in progress at the A.P.P. barracks whereby the "cooler" will be separate from the main erection.

Monday last was moving day for Mr A. Robinson and "Jimmy" who they started home in their new quarters at Greenshields.

Don't forget to ring up 57 and order a load of Black Diamond coal from the Adams Lbr Co. before winter really arrives.

Mr and Mrs J. B. Madder are leaving this week to take up their new business at Douglas, Man. Jim will be in partnership with his brother and will wish him the best of luck.

## WEDDING BELLS

McINTOSH—WOLFF

At the home of Mrs A. Wolff Edgerton, Alta., on Monday 16th October a pretty autumn wedding was solemnized, when her young son, daughter Cora Ellen, became the wife of Donald Robert McIntosh son of Mr and Mrs. Peter McIntosh of Tofield, Alta. Rev. J. A. Smith of Edgerton officiating, tied the nuptial knot.

The Wolff home, being especially and tastefully decorated for the happy occasion, presented a charming setting. The bride who was given away by her brother, George Wolff, took her place by the side of her lover under an elaborate arch for the ceremony which united them.

The bride was becomingly dressed in white satin, trimmed with yellow roses. The groom's suit was Miss Jean Challenger was a gold link bracelet.

After the ceremony a tempting buffet luncheon was served to some fifty guests at the bride's home.

The happy couple left on the evening train for Banff where the honeymoon will be spent and on their return they will take up their residence at Tofield, where the groom will assume his duties again in his creamery.

The bride was the recipient of many valuable and useful presents among which was noticed a marble clock from her mother and a handsome chest of community silver from the groom's parents.

## Second Derrick Is Now Being Built On Site Chosen For No. 2

Drilling Location

Buildings To Be Rushed Up  
If Necessary Holes Can Be Drilled To  
Depth of 5,000 Feet With  
Machinery Installed

Just to show what the discovery of the precious fluid will mean to all who take advantage of assisting in the wonderful work of developing this field, it is only necessary to quote the following from a financial exchange—drilled changes are being cashed in Great Falls this week by stockholders of the Kevin-Sundurst oil company, who have received cheques for a 500 per cent. dividend! The Kevin field was unknown a few months ago, and yet today each stockholder is receiving five times his original investment with his original holdings still intact, and of full value for drawing of further dividends.

As is usual at the annual gathering of the United Farmers and their distinguished sister organization, the U.F.W.A., the "annual" at the theatre last week proved to be as successful as was hoped, with the result that the coffers of their respective associations were replenished to a goodly extent.

The hall was packed to the doors, and the special picture which opened the evening's amusement was one of the best ever presented. As the conclusion of that feature, Mr J. E. Hill, the president, acted as chairman for a short musical programme, each item of which was encased to the echo, after which the delightful "cats" so renowned of these gatherings were done full justice to.

The theatre was later cleared for the dance, which was so thoroughly enjoyed that the orchestra was kept busy until after four o'clock next day.

The full programme was as follows: Violin duet—Veitch Bros. Recitation—Miss Herndon. Ventriolism sketch—Mr A. Aitken. Recitation—Mr H. Pilgrim. Vocal solo—Mr J. Veitch. Reading—Miss Herndon. Monologue—Mr A. Aitken. Vocal solo—Mr J. Veitch.

## BROADWAY LURE ESTRANGES WIFE FROM HUSBAND

Foolish Girl Believes That Happiness  
Is to Be Found  
On Stage

The lure of Broadway—meaning success, pleasure, gaiety—was much too strong for Adrienne Landreth to resist in spite of her rigorous upbringing.

"I've been warned of the pitfalls of the stage," she cried. "I've been brought up in the belief that a woman has one big chance for happiness, and that laid in her home. Why, I want to know can't a woman have a good career and a home too?"

There was no solution at hand, so she decided—foolish as it may seem—to give up the home and the husband in favor of the stage life which beckoned so alluringly. But first she had to get a sister looking just like her to occupy her place in the home, and allay the suspicions of her husband.

It was a daring chance to take—with the happiness of two persons depending on the outcome—but the wife lost; but she was gone to the last and saw to it that those she left behind reaped nothing but happiness as the result of her unfortunate career.

It is dramatic story of unusual power and absorbing interest—this of the "Broadway Bubble," the Viapgraph screen production which will be shown at the Elite theatre next Friday and Saturday. The star is Corinne Griffith, and she brings all of her brilliant talent to make this one of its most fascinating films of stage life and actual fact of the footlights yet known.

"The Broadway Bubble" has all the fascination of that famous thoroughfare wound about a story which surprises and grips at every turn; and its spirit incarnate is Corinne Griffith.

## Sanctuary Method Great Success

The astonishing manner in which wild animals respond to sanctuary protection is shown by the increase in wild life of all kinds in the Kootenay National Park. Kootenay Park is the new area in British Columbia recently reserved along the route of the new transmontane motor highway from the Vermilion Summit to the Windermere Valley. The district is practically virgin country and was naturally a home for big game which since the creation of the Park and the establishment of rigid protection has increased to such numbers that it promises to form one of the greatest attractions to motorists when the road is opened next spring.

## LOCAL NOTES

Mr Fred Sharp has now moved his family into the Gregson house, on the west side of town for the winter.

Mrs A. Hoare entertained a few of her friends at her home on Monday last.

Mrs G. L. Hudson entertained at her home on the afternoon of Wednesday and Thursday last.

Miss Marie Girard was a visitor from the city for a few days last week end.

Mrs Goldworthy and her mother Mrs. Obenhoff, have been spending a few days on a visit to Mrs. W. W. Yeager of town.

Mr O. M. Nelson, of Wetaskiwin, the school inspector for the Wainwright district, was in town for a short visit at the beginning of the week.

A large number of kiddies, some 38 in all, thoroughly enjoyed the Halloween party at the home of Mrs. J. W. Stuart on Friday last, and all voted it the best yet!

## U.F.A. & U.F.W.A. HOLD SUCCESSFUL SOCIAL AND DANCE

Annual Affair at Elite Theatre Proves  
Delightful; Overflow Crowd In  
Attendance Too!

As is usual at the annual gathering of the United Farmers and their distinguished sister organization, the U.F.W.A., the "annual" at the theatre last week proved to be as successful as was hoped, with the result that the coffers of their respective associations were replenished to a goodly extent.

The hall was packed to the doors, and the special picture which opened the evening's amusement was one of the best ever presented. As the conclusion of that feature, Mr J. E. Hill, the president, acted as chairman for a short musical programme, each item of which was encased to the echo, after which the delightful "cats" so renowned of these gatherings were done full justice to.

The theatre was later cleared for the dance, which was so thoroughly enjoyed that the orchestra was kept busy until after four o'clock next day.

The full programme was as follows: Violin duet—Veitch Bros. Recitation—Miss Herndon. Ventriolism sketch—Mr A. Aitken. Recitation—Mr H. Pilgrim. Vocal solo—Mr J. Veitch. Reading—Miss Herndon. Monologue—Mr A. Aitken. Vocal solo—Mr J. Veitch.

## Memorial To Missionaries

The most probable site of the martyrdom of the Jesuit missionaries Fathers Brebeuf and Lalemant, by the mission of St. Ignace situated near the present town of Midland, Simcoe County, Ontario, has been donated by Mr. Charles E. Newton for the purpose of a permanent memorial to commemorate one of the most heroic episodes in early Canadian history. At this time the heraldic legend between the Huron resulted in the practical annihilation of the Huron tribe. Urged to flee, the heroic missionaries declared that the priest must stay with his people and amid the whoops and yells of the Hurons they were dragged through the forest and subjected to the most frightful torture until death released them from their sufferings. Mr. Newton, at one time reeve of the township of Tay and for many years in the service of the provincial government, has shown much public spirit and historic interest in preserving the site and at the request of the Canadian National Parks Branch has decided over an acre and a quarter of his farm for the erection of a suitable memorial and tablet in memory of the heroic priests. The work will shortly be taken in hand and the memorial will add one more to the notable historic shrines of Canada.

We are sorry to learn that Mrs. Pricer is suffering from an attack of heart fever, and extend hopes of her speedy and complete recovery.

Mr M. W. Miesner, the well-known piano tuner of Edmonton will make his professional visit to town during the beginning of November. Anyone desiring his services please leave name and address at the Star Office.

Music and games filled out the evening, and an enjoyable lunch closed the affair.

A full report of the doings last night at St. Luke's church annual party will appear in next weeks issue.

## PUCK CHASERS ARE NOW AWAY TO REAL FIRST CLASS START

Well Attended Meeting Elected New  
Officers for 1922-23 Term;

Dr H. Wallace, Pres.

A fairly well attended meeting gathered in the Town Hall on Friday evening last, when in the unavoidable absence of Dr Wallace, the president, Mr. Matthew Greer acted as chairman. The election of officers for the 1922-23 season was proceeded with and an unanimous vote put Dr Wallace back for another term, after Messrs Shelton and Robinson had both received nomination.

On the vote for the vice-presidency Mr. Geo. Shelton was declared elected while the position of manager was voted to Mr. J. Bryant, Mr. O. Michon having also been nominated; it being understood that the captain of team was to act also as assistant manager.

Messrs Washburn, Wallace and Geo. were appointed as the Finance committee, and before adjourning the meeting set the membership fee at \$2 for the season.

## CAN YOU ANSWER THESE

If you think you are smart and well informed, just see if you can answer these questions: You have seen hundreds of white horses. Why did you never see a white colt? Why does a horse eat grass backward and a cow forward? Why does a lion vixen come to the left and a bear vixen to the right? Why does a horse, when staked out by a rope, unwind the rope while eating, while a dog winds it up into hard knots? Why does a horse get up on his front feet first and a cow on her hind? And why does a dog always turn around three times before he lies down?

## PRESENTATION TO RETIRING MEMBERS OF GRACE CHURCH

Mr and Mrs J. Madder Leaving After  
Many Years Residence and  
Church & Public Life.

A very pleasant little gathering was held in Grace church on Friday evening last when members and friends assembled to take leave of Mr and Mrs James Madder who are moving this week to Douglas, Man.

The guests of the evening have been residents of Wainwright for over eleven years, and during the whole of that time have worked hard in the interests of Methodism in town, and as a fitting send-off the presentation made by Rev. H. Bosworth on behalf of the congregation formed a pleasing climax.

In asking the acceptance of a handsome black marble clock and a silver mounted cassette, the pastor read the following:—

"Dear Friends—It is with the deepest regret that we gather here to say 'Farewell' to you upon your approaching departure from our church and community. For the past eleven years of your residence among us we have learned to love and trust you in all our relations. In all matters affecting the interest of our church you have given ungrudgingly of your services. In the Sunday school, Bro. Madder, your place will be filled only with the great esteem and the membership of all ages will feel that there is a gap in their lives when you are gone. In the choir, also, your zeal has been unflagging. We have learned to depend upon you, and we feel that one of the pillars of our church is being removed."

Mrs Madder, we shall miss you more than we can tell. Your kind and genial personality has always been a constructive force in our church, and our Ladies' Aid will feel the loss of your quiet influence and willing hands. We pray that success and happiness may attend you both in your new home and may the blessing of the God that maketh rich go with you. We know that the church and community to which you go will be enriched by your presence, and we ask you to accept these tokens of our affection and trust that their presence in your new home may be a constant reminder of the regard in which you are held by the congregation of Grace Methodist church, Wainwright."

Music and games filled out the evening, and an enjoyable lunch closed the affair.

A full report of the doings last night at St. Luke's church annual party will appear in next weeks issue.

A new overcoat will make you "step high," he proud comfortable feeling you will have when you wear one of our swell, new overcoats will be worth more to you than the new coat will cost.

Come in and slide into one of our overcoats and see how it looks and feels.

You don't have to buy—but you will and you will thank us for asking you to come in.

### LATEST ADDITION TO MODERN FARM MECHANICAL EQUIPMENT

The Van Allan field grain cleaner is the latest addition to modern farm mechanical equipment. It is a Canadian invention and has been put through successful tests in North Dakota and Manitoba harvest fields this fall. It works alongside the separator under its own power and frees the grain of all foul seeds and dirt as it is threshed, bringing it down to straight grade, and leaving the farmer his screenings ready ground for stock feed.

The machine consists chiefly of a suction, a gang of screens in a reciprocating shoe, an air blast further screen for foreign seeds and broken wheat in a second reciprocating shoe, and a second suction a perforate screen trough for wheat delivery worm, and a delivery elevator, spouting into a wagon. The screening from various parts are all spouted into a central place under the machine where all the black and injurious small seeds are removed. The cleaned screenings are then elevated to a compact little roller grinder that will take care of all the screenings from the machine when run at full capacity.

Fine adjustments of suction and blast are not necessary as whatever grain is blown over or sucked up is returned back to the screens for recleaning. There is absolutely no waste to the machine in the way of lost wheat. Also black seeds are not blown back over the prairie. The cleaner is mounted on a steel frame truck and has its own engine attached to frame.

The motive power is derived from a two cylinder gasoline engine of 8 H. P. mounted on the same frame as the cleaner. The engine is mounted on a solid cast iron base plate of 200 lbs. weight together with a radiator, a marine double friction disc clutch and the drive pulley shaft bearings. This ensures constant perfect alignment.

The flywheel overhangs one side of the frame, while the drive pulley overhangs the other side so that the engine can be used as it stands, for driving any other farm machinery when engaged in grain cleaning.

The chopper is fitted with patent wedges between the roll bearings that allow the rolls to come very close together without touching each other. This makes intermittent feeding possible without injury to the grinders. Strong springs press the rolls together the screenings are fed to these by a little feeder that drops an even and fine curtain of material to the rolls thereby ensuring proper grinding. The chop is delivered through a bagger. It will be remembered that all black seeds have been removed from the screenings before grinding takes place.

The machine was first tested at the Western Canada Flour Mills and the cleaner was there checked by the Seed Branch of the Dominion Experimental Farms. The findings were excellent. Rejected wheat with 10 to 15 per cent of oats was reduced to grade wheat, some of the runs reduced the oats present in the wheat to one and also three-quarters of one per cent. The reports sent to Ottawa were most favorable. After this the machine was taken to the dirt farm where skim-milk is abundant, the manufacture of cottage cheese will provide a cheap and palatable food, in some localities, may prove a valuable source of revenue. Milk, which has soured quickly or sweet milk with the addition of rennet, are both satisfactory for this type of cheese but milk which has soured slowly, or is stale, should not be used, as it is apt to impart an objectionable bitter flavor. There is the same necessity as in all other milk products that the milk from which cottage cheese is made be of good quality and carefully handled and that all utensils be scrupulously clean.

### WHY & HOW TO USE COTTAGE CHEESE

Cottage cheese is the only type which in this country is now made to any extent in the home. It requires but little time or labor and, as a food, ranks among the most economical and delicious. Small quantities of sour milk which otherwise would might be wasted can be utilized in this way, while a large quantity is equally easy to prepare on the farm where skim-milk is abundant, the manufacture of cottage cheese will provide a cheap and palatable food, in some localities, may prove a valuable source of revenue.

Milk, which has soured quickly or sweet milk with the addition of rennet, are both satisfactory for this type of cheese but milk which has soured slowly, or is stale, should not be used, as it is apt to impart an objectionable bitter flavor. There is the same necessity as in all other milk products that the milk from which cottage cheese is made be of good quality and carefully handled and that all utensils be scrupulously clean.

Natural souring of milk is due to the growth of harmless bacteria which act on the milk sugar, producing lactic acid and causing

the characteristic flavor. The most favorable temperature for the growth of this bacteria is between 65 and 70 degrees F. At this temperature, milk will sour in between 24 and 36 hours. The time required for souring may be shortened by adding to each quart of sweet milk about one-third of a cup of clean, sour milk of good flavor. This should be kept at about the same temperature and will sour in from 18 to 24 hours. Milk may also be coagulated by the addition of junket tablets which are prepared from rennet and cause the milk to clot, or to "set," in a short time.

A good cheese will have a clean, mild, acid, flavor and a smooth uniform texture. About one-third of a pound of cottage cheese may be obtained from one quart of skim-milk.

The variety of ways in which it can be served, the ease of preparation, coupled with its palatability and low cost, entitles cottage cheese to an important place among our food.

On account of the large amount of protein which it contains, cottage cheese can replace in many of the more expensive foods of similar composition, such as meat, fish and eggs. One pound of cottage cheese and one pound of moderately lean meat contain about an equal amount of protein. The housekeeper who wishes to plan her menus with due regard to economy and food value will do well to learn the possibilities of including more of this valuable milk product. The protein and mineral matter which it contains provide growth material for bones and at a lower cost than most foods. The flavor lends itself to very palatable combination with many other foods—fruit, vegetables, etc. while it is equally delicious when served alone, with cream and sugar or seasoned with salt and pepper. In summer it is especially useful as it requires but little heat for preparation and can be used in a variety of attractive and nutritious salads, while it is delicious for sandwiches and picnic lunches.

It is suitable also for the school lunch at any season of the year, as it is a concentrated form of nourishment, easily digested and well liked. It is best when eaten with a day or so after it is made although it put in an earthenware or glass dish and kept cold, it will keep for several days. The whey which is drained from the curd in the process of making cottage cheese, may be used as a beverage if sweetened with sugar and flavoured with lemon juice. It should be strained and chilled before serving.

The use of cottage cheese, or as it was usually called "curds," was much more common in our grandmothers' day and no food was more generally relished. Its use at the present time could be greatly increased with many advantages from the standpoint of labour-saving and economy.

### THE FOOD VALUE OF BUTTERMILK

There is an old saying "Drink buttermilk and live to be a hundred years old." While this may not be an infallible statement, medical science recognizes the value of good buttermilk as a food.

It is often prescribed by doctors for babies with weak digestion and older people as a beverage in certain disorders while healthy people are advised to drink more of it. It is easily digested and possesses a certain medicinal value due to the development of the lactic acid bacteria. Its food value is about equal to sour skim-milk. Like skim-milk it contains water soluble vitamins, protein and mineral matter and furnishes these valuable substances at a very low cost. Because it is simply and easily made, it can be had anywhere at all seasons of the year.

Few beverages have gained greater popularity than buttermilk. It is a universal favourite and extensively used on account of its flavor and beneficial effects. While it is famous as a beverage it can be used in many recipes and will make many delicious dishes.

### IF EDITORS ONLY TOLD THE TRUTH

Only a short time ago the editor of a paper in Indiana grew tired of being called a liar, and announced that he therefore would tell the truth in the future, and the next issue contained the following items:

John Coyle, our groceryman, is doing a poor business. His store is dirty and musty. How can he do any better?

The Rev. Mr. Stye preached last Sunday on charity. The sermon was pious.

Dave Canfield died at his home here on Tuesday. The doctor gave him out as heart failure. Whisky killed him.

ed him. Married—Miss Sylvia Rhoads and James Collins, last Saturday at the Baptist parsonage, Rev. Gordon. The bride is a very ordinary girl who doesn't know more about cooking than a jack rabbit and never noticed her mother three days in her life. She is not a beauty by any means and an average dancer. The groom is an up-to-date loafer. He has been living on the old folks at home all his life and is not worth shucks. It will be hard life.—Ex.

### Railway News in Brief

Winnipeg.—A postal car service between Edmonton and Spirit River will be inaugurated within the next ten days according to a statement made by D. C. Coleman, president of the E. D. & B. C. railway. This service was authorized by the post-office department in November last but difficulties were encountered in getting the necessary equipment. Two cars will be ready next week and the service will be started immediately thereafter.

Montreal.—At a series of conferences held during the last few days at Windsor Station, at which representatives of Military District Number Four, Great War Veterans, Army and Navy Veterans, St. Andrew's Society, and St. George's Society were present, plans were discussed and formulated for the forthcoming visit to Canada by the band of His Majesty's Scots Guards, who are coming to Canada next May by consent of the King, to give a series of concerts for the benefit of the Great War Veterans' Association.

Vancouver.—C. P. R. steamship officials report the arrival of the steamship "Makura" at Vancouver, I.C., from Australia, New Zealand, Fiji and Honolulu, carrying in addition to a passenger list of notable, miscellaneous cargo, including 14,200 carcasses of mutton and 500 tons of butter.

Among the passengers was David Clark, sheep and cattle king of Australia. Practically all the mutton and butter carried was from Mr. Clark's ranch in Australia. He owns countless thousands of sheep and cattle on his many ranges in the Commonwealth, and although decidedly modest about his accomplishments as a cattle man, he is considered one of the most prominent men in the business in Australia.

Banff.—The sleigh dog and whipper races at the Banff carnival were among the most entertaining of the sports programme. The races were run down the main street, ending in front of the hotels. Several ladies entered teams, among them being Mrs. Drummond Davis, Mrs. Jim Brewster and Mrs. William Brewster. There is plenty of dog life in Banff. Every youngster seems to have a dog. Many of these faithful and amiable animals draw their little masters round in little cutters and seem very proud of them. One small boy drives a team of two, and comes galloping down Banff Avenue in thrilling style.

Whippet racing in Western Canada is a comparatively new sport and Banff belongs the credit of starting it a few years ago at the carnival.

Too many people mistake an excuse for a reason.

## Robert Stead Writes Once More of Canadian Homestead Life

"Neighbours," a Happy Novel of the Northwest, His Latest and Best

The Second Great Wave of Settlement The Theme of an Absorbing Romance

Stead finds Delightful Material in the Modern Saskatchewan Home.

Humour and Pathos no less than Love and Achievement make an Authentic Picture of our Country at its Best.

Canada's Most Widely Read Author again gives Proof of His Gift for Realistic Writing.

ROBERT STEAD, Author of "Neighbours," "Denison Grant," "The Cowpuncher," "The Housemaid," etc.

When Robert Stead was only a lad, I saw from a recent biographical sketch before me, he bought out a lumber mill. I wonder if his memories are at all connected with the opening paragraph of this latest novel of his, "Neighbours," which links back to a grey stone house by a road entering a little Ontario town. Across the road a mill race runs, and across the millpond was a mill; an old fashioned wooden mill which was the occasion and support of the little town. Beside the mill was a water-wheel, not a modern turbine, but a wooden wheel, which, with sunbeams and spray, a mist of jewels into the river beneath with the prodigality of a fairy prince.

For good reading and a real appreciation of Canadian literature, "Neighbours" is a book indeed. Outside of the fact that it will probably be one of the best selling books of the year, it deserves high praise as a delightful piece of work. Stead is one author who has never "let the public down" through a series of excellent publications. We wish "Neighbours" the great success which "The Housemaid," "The Cowpuncher" and "Denison Grant" have brought their author.

"NEIGHBOURS," a happy novel of the Northwest, by Robert Stead. Hader & Houghton, Toronto, \$1.75

WAINWRIGHT, ALBERTA, NOVEMBER 1st, 1922

## THE STAR HAS

## ANOTHER BIRTHDAY

With this issue The Star com-  
mences another volume; another  
milestone in its existence has been  
passed. In other words The Star  
has started on the fifteenth year  
of its life as a community builder,  
and we cannot allow the oppor-  
tunity to pass without expressing  
our deepest appreciation to our  
advertisers, readers, and friends  
generally for the support that has  
been received, and for the kindly  
words that from time to time have  
been extended to cheer and en-  
courage.

To more widely mark this  
epoch in our history, The Star  
has now entered the "small city"  
or "big town" class of publication  
and has inaugurated an "All  
Home-Print" edition. Here-to-for  
we have always used the patent  
inside or ready-print paper, but  
we feel that Wainwright and dis-  
trict (now on the verge of possibly  
one of the biggest oil booms of  
the Dominion) is now fully cap-  
able (and willing) of supporting a  
newspaper of such a class.

Our ideals of what a news-  
paper should be have never been  
quite fully realized, but we have  
endeavored at all times to present  
to our subscribers a newspaper  
which would be a credit to Wain-  
wright, and we leave it to them to  
decide what measure of success  
we have had in this respect.

During our experience of many  
years we have made many mis-  
takes, but we can truly say that  
these were errors of judgment  
and not of the heart. We are only  
human, and we trust our short-  
comings have at least been over-  
looked if not completely forgotten.

As to the future: the citizens of  
Wainwright expect us to continue  
doing a good deal of general  
good for the place, and of course  
material benefit. This is admitted  
to be one of the things a newspaper  
is expected and called upon to do,  
but we truly feel that the general  
public can help considerably in  
that philanthropic side of the  
work. We have labored hard and  
faithfully to make The Wain-  
wright Star one of the best news-  
papers in Northern Alberta, and  
judging from compliments and  
expressions of opinion received  
from absolutely unbiased sources  
we have reason to think that it  
is possibly the best country week-  
ly in that territory. We trust  
that it may even be so, and that  
you all may have a share in keep-  
ing it in that enviable position.

Our faith in Wainwright is  
stronger than ever before, and we  
hope to see still greater develop-  
ment and improvement in the  
years to come with a deepening  
of a good community spirit and  
general prosperity to all.

## OPPORTUNITY

## IS KNOCKING

Out of the mouths of babes and  
sucklings &c. It was imputed to  
those who believe long since that  
the famous Wainwright-Fabian  
district would one day prove one  
of the greatest of those store-  
houses in which a beneficent na-  
ture for ages hidden away the oil  
so necessary to the modern man  
that they had just about as little  
mental capacity as the babe or  
suckling. They were the dreamers  
of mere pipe dreams, idle vision-  
aries and a dozen or two other  
things upon which these "practi-  
cal" people of little faith or fore-  
sight looked down with some-  
thing like pity. Time, however,  
brings his revenges in this as in  
other matters. Even the "practical"  
people are beginning to feel that  
they had no monopoly of practi-  
cality; that those whom they  
deemed visionaries were shrewder  
than they imagined, and laid the  
foundations of their faith on the  
sure basis of scientific informa-  
tion with the ocular demonstra-  
tion of the presence of a large body  
of oil, and with the assurance  
quickly gaining strength that this  
is but a very small earnest of  
what is to follow, the mists of  
doubt are being swiftly and sure-

ly dispersed, and expectation is  
now on tip-toe for the great event  
which it is confidently believed  
must come ere long. The "babe  
and suckling" the men of faith  
have now much the best end of  
the argument. Local believers,  
the presiding spirits of the old  
Battle and Gratton Companies,  
Imperial Oils, and last but by no  
means least, the British Petrol-  
eums Limited, are on the eve of a  
triumphant justification of their  
faith.

The Fabian sphinx is still  
silent—justifiably silent, no doubt,  
from its standpoint, but the  
steady continuance of drilling  
operations disposes summarily of  
some of the wildest rumors which  
have been put in circulation by  
those who desire to discredit the  
field, and whose imaginative work  
would make one doubtful whether  
Ananias is really dead. As for the  
British Petroleum, their activity  
and rapid progress with the pre-  
liminary work of their Number  
one well can be seen and noted of  
all. Controlling over twenty thou-  
sand acres, including much that is  
deemed by experts the best part of  
the field, this company clearly  
means business. It is out to make  
the utmost of its strategic position  
without loss of time, and, as in-  
timated to us, its direct objective  
is the practical and speedy develop-  
ment of the field which we must  
all desire.

Time is, indeed, the verge es-  
sence of this business. From one  
point of view it may seem that  
there need be no undue haste in  
recovering what nature has hid-  
den away during almost countless  
years. But there are surely few  
who believe in the riches of this  
field who do not think that they  
should be revealed as quickly as  
possible, and that those who  
believed and wrought toward this  
end should be rewarded for their  
faith and works without avoidable  
delay of an hour. Those who are  
interested in the prosperity of  
Wainwright have a special reason  
for desiring expeditious and thor-  
ough exploitation of the oil  
wealth of the country around  
them. It is still the day of com-  
paratively small things with us,  
though we have made wonderful  
progress for so young a com-  
munity. But with an extensive  
oil field in active operation at our  
very doors the progress of Wain-  
wright would be absolutely phenom-  
enal, and more would be gained  
in a month than might otherwise  
be the record of several years.

Our opportunity is NOW, and  
we should be ready to take advan-  
tage of it, and co-operate to the  
utmost of our ability with those  
who are making it available for  
us. Outside capital and enterprise  
are coming to the aid of our best  
interests. Every instinct of local  
patriotism, and every motive of  
an enlightened regard for our own  
welfare and prosperity, should  
urge us to assist them and our-  
selves in giving Wainwright a  
prominent place in the sun.

## POINTED PARS

More people have the gift of  
speech than the gift of silence.

The order the trousers the bet-  
ter they are prepared for the fray

Quiet: About the hardest thing  
for a woman to keep in this  
world.

Marriage makes one of two, but  
it does not seem to decrease the  
population.

Why are the men who say  
women are delusions and snares  
always ensnared by delusions?

No man ever becomes too shift-  
less to give advice.

It takes the bald man to con-  
gratulate himself that it is not  
gray.

It's a poor excuse a woman  
won't take when a present goes  
with it.

Love is blind. That is it is born  
blind, but it soon gets its eyes  
open.

Age brings wisdom, but the  
trouble is it doesn't leave us much  
time to use it.

## JUDICIAL SALE OF

## FARM PROPERTY

Near Wainwright, Alberta

PURSUANT to judgment and final  
order for sale, there will be offered for  
sale by Stephen R. Bowerman, at the  
Town Hall, in the Town of Wain-  
wright, in the Province of Alberta, at  
one o'clock in the afternoon, on  
SATURDAY NOVEMBER the 25th  
A.D. 1922, free from all encumbrances,  
save taxes for the current year and  
subject to the reservation and condi-  
tions contained in the original grant  
from the Crown or in the existing  
Certificate of Title the following lands  
namely:

The South-East Quarter of Section  
Thirty (30), Township Forty-four  
(44), Range Five (5), west of the  
Fourth Meridian, in the Province of  
Alberta, containing 160 acres more  
or less, reserving unto his Majesty,  
his Successors and Assigns all the  
mines and minerals.

The Vendor is informed that this  
property consists of 160 acres and that  
practically the whole of the said land  
is good arable land. The said property  
is fenced on all sides with a wire  
fence. The soil on the said land is a  
sandy loam approximately eight inches  
deep with deep clay subsoil. The  
nearest town to the said land is  
Wainwright, a distance of seven miles.

The property is situated in a settle-  
ment of English-speaking people. The  
property is situated 4 miles from a  
school. There are the following build-  
ings on the said property:—One horse  
barn, 28ft by 40 ft, 10ft high with hip  
roof; One lean-to cattle barn 14ft by  
10 ft, 7ft high on low side; One two  
storey farm house 16ft by 26ft; One  
implement shed 44ft by 48ft with drive  
way open at one end. The said build-  
ings are in a fairly good state of repair.  
There were 130 acres of land under cul-  
tivation on the said property this year  
50 acres being cropped with wheat and  
the balance summer fallowed.

This property will be offered for  
sale subject to a Reserve Bid. The  
terms of payment will be ten per cent  
cash on the day of sale and the bal-  
ance to be paid into Court within sixty  
days thereafter without interest, or in  
the alternative, ten per cent as afore-  
said, the execution of a mortgage by  
the purchaser for the sum of \$1000.00  
and the remainder of the purchase  
price to be paid into Court within sixty  
days of the date of sale without  
interest. The mortgage shall bear a  
term of three (3) years, payable as fol-  
lows:—

The sum of \$333.33 one year from  
the date of sale and a similar sum two  
years from the date of sale and a simi-  
lar sum three years from the date of  
sale, and shall bear interest at eight per  
cent per annum payable yearly.

Other Terms and conditions are  
the standing conditions of the Supre-  
me Court of Alberta, as settled by  
the Master in Chambers.

Further Particulars may be had  
from Messrs Cormack and Drysdale,  
solicitors, 316 Empire Block, Edmon-  
ton, Alberta.

Dated at the City of Edmonton, this  
12th day of October, A.D. 1922.

Approved: R. P. WALLACE, Clerk.

A. Y. B., H.C. 22-11

NO MORATORIUM  
FOR ALBERTA.

Hon. J. E. Brownlee, Attorney Gen-  
eral, has made it plain that the govern-  
ment has no intention of creating a  
moratorium in Alberta. There seemed  
to be some misunderstanding about  
this question, but the attorney gen-  
eral's recent statement should clear the  
matter up. The office of Commissioner  
Fremm will be exercised in a purely  
voluntary way, in endeavoring to ad-  
just differences between debtors and  
creditors, which should be good busi-  
ness for the country, and beneficial to  
all interests.

## Acquire the Habit

Doubtless you know persons who, notwithstanding  
small salaries, have more substantial savings than  
you.

It is all in getting the saving habit. Persistently  
deposit \$5 in your savings account every week for  
five years, and with interest at 3% compounded  
semi-annually, your balance will total \$1,401.74.

Keeping in the public eye is all right as long as one does not try to blind the public.

When a man makes the garden onions fill the biggest bed.

**LOCAL NOTES**

The sad news was brought to town on Saturday that Mr. and Mrs. G. Gunn, of Unity had lost their little daughter aged eight months from acute indigestion. The body was brought to town and the funeral took place in Wainwright cemetery on Monday. Mrs. Gunn is a daughter of Mr. Mrs. T. Cooper.

The Rev. H. Bosworth and family were visitors to Hardisty over the week end. They motored over to the south town.

Mr. Pat Adams of the Imperial staff spent the week end in the city.

During the illness of Miss H. Tory of the depot staff, Mr. G. Kimball, of Edmonton, is relieving Miss Tory in recovering nicely.

The big loads of lumber which are to be seen daily going out to the Buffalo Park, are indications that Messrs. Tweed and McKay, the contractors have quite a long spell of work ahead of them at the south end.

**FIRE INSURANCE**

HOUSES TO RENT

I kept my barn insured for years, for I had dreams of scorching steers, of peacocks blistered to the ears, and pitchforks charred and burned. While other men were taking trips with bulging wallets on their hips when allowed to stay three burning cigarettes away and dropped live ashes in my hay yet never made a blaze. At last I argued to myself—Why stick up trouble on the shelf? Why not hoard up this surplus pelf to spend in other ways? So when the agent came around he nearly sank into the ground, for I made no uncertain sound when I made known my plan. "All right," he said, "but some bright day you'll come around to me and say this risky business doesn't pay—you poor deluded man!" That night a hobo hove in sight, a weary man in sordid plight, and asked if he might spend the night in my good mow of hay. "You may if you don't smoke in bed," said I. He shook a solemn head, "I never smoke," was his reply, and so I let him stay. I woke at three o'clock that night to see a weird and lurid light while through the yard I marked the flight of that misty man. He'd left his pipe—a briar—he'd dropped it as he ran. I lost no livestock, thank the Lord, but lost the building, hay and Ford, ten tons of oats that I had stored for my good grubbing plug! I looked that agent up and said, "See here! Insure my house and shed, my woodpile, silo, stove and bed, as quick as you know how!"

**BRING HIM IN**Watch for the **BIG SUPER-PRODUCTION EVERY MONTH****BULLETIN FROM  
PROVINCIAL GOVT.**

Government Buildings, Edmonton

For Publication Week of  
October 30th, 1922**IMPROVEMENT IN  
PROVINCIAL DAIRYING**

At last year's session of the Legislature, the Government passed an amendment to The Dairyman's Act, eliminating the country Cream station and furnishing in their place a system of government inspection and grading. The wisdom of this action is shown in a report of the summer work recently submitted by C. Marker, Provincial Dairy Commissioner, to Hon. Geo. Hoadley, Minister of Agriculture.

As compared with 1921, there has been improvement both in the quantity of butter manufactured and also in the quality of the product, thus bearing out the argument advanced for the passing of last session's dairy Legislation. Mr. Marker, in his report says:

"There has been gratifying improvement in the average quality of butter during the five months now under review over that of the corresponding period of 1921. In order to obtain a basis for comparison, a summary has been made of the classification of the butter handled through the provincial butter grading stations at Edmonton and Calgary during the periods in question. The butter to graded represented approximately 60 per cent. of the total creamery butter produced and may with facility be taken as an index of the comparative quality of the whole production.

Butter graded—5,406,131 lbs.  
Special—26.3 per cent.  
First grade—34.8 per cent.  
Second grade—14 per cent.

"Anyone who is familiar with dairy market conditions will realize the significance of these figures and of the result that has already accrued from this very interesting demonstration in the field of 'vertical' co-operation."

**AMENDMENT OF****THE GAME ACT**

Hon. Geo. Hoadley, Minister of Agriculture, intends to introduce a

bill at the next Session of the Legislature to amend The Game Act, giving the Minister power to grant permits to farmers who are suffering loss from prairie chickens, to shoot them for one or two days out of season as the case may demand. This does not mean an extension of the shooting season, and the privilege will not be extended to sportsmen.

**CANADIAN GRAIN CROP**

Some statistics have figured out that it would require 257,250 freight cars and 7,350 locomotives to move Canada's grain crop this year, and that if placed in a continuous string these cars and engines would make a train 2060 miles long, or almost the distance from Montreal to Medicine Hat. Canada's wheat crop this year is large enough to supply 35,000,000 people with a loaf of bread per day for a whole year.

**MANY HOMESTEADS AVAILABLE**

A recent homestead map issued by the Department of the Interior shows that there are over 30,000 quarter sections, or over 8,000,000 acres of land available for homestead entry in the Edmonton district, north, northwest, and south-west and within a radius of from fifty to one hundred miles of Edmonton. There are also millions of acres available for homesteads in the Peace River and Grande Prairie districts.

**THE WHEAT BELT EXTENDS NORTH**

News has come out of Dawson City in the Yukon, that wheat sown there this spring matured and ripened, was made into whole wheat flour, and sold to consumers in this northern Canadian city.

**GOOD CROPS AT****PORT VERMILION**

Rev. T. F. McGregor, Presbyterian minister at Port Vermilion, has come up the Peace River, and brings word of good crops this year at that far northern point. The crops are up to the average over the whole district. The wheat was No. 1 Hard as usual. Hay was abundant and the season favorable to putting up large quantities of fodder. Tomatoes, cucumbers, pumpkins, and even muskmelons matured this year.

**FEED FOR WINTER STEER FEEDING**

Winter steer feeding is profitable, but profit depends upon the proper utilization of the cheapest and best farm-grown feeds.

This is the proper time to determine the rotations to be following next year, and the types of crops to be grown for the production of suitable winter feeds.

From the results of many years of careful study of the growing and purchasing of feeds for winter steer feeding, the Experimental Farm have published their compiled results as special pamphlets on "Winter Feeds for steer feeding." Write to your nearest Experimental Farm for these valuable pamphlets.

**FINISH YOUR LAMBS BEFORE MARKETING**

With an abundance of cheap grains it should be profitable to feed up unfinished lambs because the public are demanding fresh-killed lamb meat and are willing to pay higher price for it. Send only the finished lambs to market and retain the other until finished.

**CANADIAN NAT'L  
REDUCE FARES TO  
PACIFIC COAST**

The Canadian National Railways will sell tickets at greatly reduced fares from points Winnipeg and Emerson west in Manitoba, Saskatchewan and Alberta to Vancouver, Victoria and New Westminster on December 5th, 7th, 12th, 19th, 21st, 26th, and 28th, 1922; January 2nd, 4th, 9th, 11th, 16th, 18th, 23rd, 25th, and February 6th, and 8th, 1923.

Travelling on the Canadian National to the Pacific Coast is a definite pleasure. There is no better way of taking a holiday than by a trip over this road, the enjoyment starts when you do, and you do not have to wait for pleasurable experiences until you reach your destination. The Canadian National Railways owns and operates its own sleeping cars and dining cars. These cars, on through trains, are models of luxury and convenience built by experts and embodying improvements resulting from long years of experience in studying the requirements of first class travel. An additional convenience is provided by tourist car service. Canadian National tourist cars are all new and embody the latest and most modern improvements. Charges are only half those for accommodation in standard sleeping cars. For those bringing lunch and desiring to do their own cooking en route, a kitchen is provided in a compartment shut off from the rest of the cars. A fire is kept constantly burning in the cook stove and a sink with taps provided hot and cold running water.

The dining cars, with their handsome finish, quite decorative details and adequate arrangements furnish a meal time environment both useful and pleasing and at reasonable cost. All passengers have access to the Dining cars.

The Canadian National Railways offers patrons the option of travelling all rail to Vancouver or rail to Prince Rupert, thence Grand Trunk Pacific steamships to either Vancouver or Victoria; on the trip may be made going one way and returning the other.

A greater influx of tourists and excursionists is expected at these North Pacific Coast resorts, as these cities have taken considerable trouble to make the countryside acquainted with the beauties of our coast points as winter resorts.

**COMMENCING OF  
HOG GRADING STARTS  
OCTOBER 30th, 1922**

The regulations under which the official grading of hogs will be undertaken have been approved by Council as submitted after final agreement by all interests represented by the joint swine appointed through the Civil Service Commission following the grading examinations have reported for duty to the Dominion Live Stock Branch. The Honorable W. R. Motherwell, Dominion Minister of Agriculture announces that the hog grading regulations will be made effective on October 30th, 1922. In the meantime, the hog grading staff is being given a thorough course of instruction at the Toronto Stockyards, so that official grading, regulations as established will be uniformly applied at all stockyards and abattoirs in Canada.

Standing grading equipment is being adopted and is already installed at several stockyards where preliminary grading tests are being conducted, and the necessary adjustments to expedite the grading and movement of hogs being made. Experimental work in carttaging for co-operative shipments providing for the identification of individual farm hogs is in its final stage and the Live Stock Commission will announce an approved identification mark simultaneous with the inauguration of grading.

**WANT TO CHANGE LOCATIONS.**

The Minister of Agriculture announces that his department is investigating the applications of more than 100 farmers who desire to be moved from their present farms to new homestead lands in Northern Alberta on account of their failures to make good in their present locations. The investigation covers the adaptability of the applicants for certain phases of farming activity, with the idea of having them move to a location that will be suitable for the line of farming they desire to follow. When applicants have been approved they will be then moved free, the provincial government the federal government and the railways each bearing a share of the expense.

ject of storing ice for summer use  
will also be given.

## Canadian National Rlws Announce Winter Trips

Another year is approaching to  
its close and with it the thought  
of many of the old folk at home.  
The festive season brings with it  
memories of long ago cherished  
memories that can never fade away  
and even though it may only be a  
short time since one last paid a  
visit home, thoughts of another trip  
will not be distant.

Extra preparations by the Cana-  
dian National Railways have been  
made to carry the exodus of  
people who will make a visit to  
their old home. No railway com-  
pany is better equipped for the  
conveying of people this year than  
the Canadian National. For sev-  
eral weeks officials have been pre-  
paring for heavy travel during the  
next two months, and this rail-  
way now offers unsurpassed ser-  
vice.

It does not matter where one  
wants to visit. An opportunity is  
presented to all. If it is in Eastern  
Canada, the Canadian National  
will have on sale from December  
1st to January 5th, tickets at great-  
ly reduced fares, good for return  
within three months, and stop-  
overs are permitted at most points  
en route, with choice of routes.  
Provisions have been made for an  
extension of return limits beyond  
three months, upon payment of a  
small additional amount.

During the month of December  
and up to January 5th, there will  
also be low excursion fares by  
Canadian National Railways to  
certain points in the Central  
States: Duluth, Minneapolis, St.  
Paul, Milwaukee, Chicago, Cedar  
Rapids, Council Bluffs, Des  
Moines, Fort Dodge, Marshall-  
town, Sioux City, St. Louis, Kan-  
sas City, Omaha, Watervorn.

Reduced fare excursion tickets  
will also be on sale to the Pacific  
coast (Victoria, Vancouver and  
Westminster) each Tuesday and  
Thursday in December, and Jan-  
uary and February 6th and 8th,  
with final return limit April 15th.

No matter where you have plan-  
ed to spend your vacation or when  
you expect to go, consult a Cana-  
dian National man. You will find  
him to be a walking encyclopedia  
of travel information. He will  
help you to plan your tour, re-  
duce your expenses, and make all  
arrangements and relieve you of  
all anxiety of looking after the  
details and the planning of a  
complete winter tour.

With all these facilities at hand  
at very reduced rates, it is sur-  
prising that few, if any, in this dis-  
trict, who will spend a long  
Christmas.

## TEST OF FRIENDSHIP

I've often scanned the faces of  
my friends,  
And wondered if, when trouble  
came to me,  
They'd prove the fickle beings  
fortune sends—

Who fly in fear when misery  
tried, who can't "play dead" and  
get anywhere. That the man who  
hesitates too much is lost. That  
the public wants good seasonable  
merchandise at reasonable prices.

That if you have good business  
Advertise. And keep it! That if  
you want Greater Business,  
Advertise. And get it! That you  
can make quicker profits by  
quick turnover of stock. That if  
you don't have a quick turnover  
your stock will depreciate in value.

That you can't "play dead" and  
get anywhere. That the man who  
hesitates too much is lost. That  
the public wants good seasonable  
merchandise at reasonable prices.

That if you have the right kind  
of goods, serviceable prices let  
the people know. Advertise.

## ARMISTICE DAY

### IS "POPPY DAY"

"Poppy" Day will be held in  
Canada as well in all the Allied  
countries on Armistice Day, Novem-  
ber 11. The campaign in Al-  
berta will be conducted by the  
Provincial Command of the Al-  
berta Great War Veterans' Asso-  
ciation and the actual selling will  
be in the hands of the various  
locals throughout the province.

In this connection it is stated  
that there are a number of dis-  
tricts in Alberta where the vet-  
erans are not organized, and in  
such instances any other organi-  
zation willing to conduct the  
campaign there is requested to get  
in touch with R. Gallagher, the  
Provincial Secretary, 270-8 Oddfel-  
lows Block, Calgary. It is hoped  
to have the province so organized  
that citizens in every district  
will have an opportunity to  
secure a poppy and wear it on Ar-  
mistice Day.

The flowers will be sold during  
the week preceding Armistice  
Day. The entire proceeds from  
the fund raised among disabled  
returned men and their depend-  
ents in the province. Each citizen  
is urged to wear a poppy in honor  
of the men who fought so bravely  
during the Great War and in  
memory of those who lie amid the  
crosses.

**SUBSCRIBE FOR THE STAR**

## WHY AND HOW TO USE BUTTERMILK Home-made Buttermilk

Buttermilk can very simply be  
made from skim-milk in the home  
by allowing the milk to sour nat-  
urally at ordinary room tempera-  
ture until it curdles, then shaking  
vigorously until the curd is  
broken up. (A glass fruit jar is con-  
venient for this purpose). It should  
then be strained, covered and  
kept in as cool a place as possible.  
Cooling immediately will  
check further fermentation and  
the development of objectionable  
flavors.

A little whole milk or a very  
small amount of cream may be  
added, if desired, before serving  
and the flavor will be very similar  
to old-fashioned buttermilk.  
The stirring of skim-milk may  
be hastened by adding to it a  
small quantity of buttermilk or  
sour milk. It is important, how-  
ever, that this "starter" be freshly  
soured and of good flavor.

**Commercial Buttermilk**  
When the cream is churned,  
there are two products—butter  
and buttermilk. If the cream used  
for butter making is of good  
quality and well flavored, ex-  
cellent products are obtained, but  
the uncertainty of the flavor of  
such buttermilk is a serious draw-  
back in sell it. It is impossible  
to secure in this way a uniform  
product and, for this reason,  
practically all buttermilk now  
sold is made from skim-milk.

This method has many advan-  
tages; it is an excellent way of  
making use of skim-milk which  
on account of the low demand  
for this product might otherwise  
be wasted; the milk used is clean  
fresh and carefully handled and  
the buttermilk is of good flavor  
and texture. Fresh skim-milk  
from the separator is pasteurized  
and a small quantity of lactic acid  
culture or starter is added to  
hasten coagulation or souring of  
the milk. It is kept at a tempera-  
ture of about 70 degrees F. when  
sufficiently coagulated, the  
milk is put into an ordinary churn,  
and churned for about 30 minutes  
to break up the curd evenly. It  
is then strained and kept at a  
temperature of about 50 degrees F.  
This is often called fermented  
milk.

The buttermilk which comes  
from a churning of cream may  
contain very small particles of  
fat which have not adhered to  
the butter, while that made in a  
commercial way from skim-milk  
will not contain any appreciable  
quantity of fat. This lack can be  
made up, however, by adding a  
very small quantity of whole  
milk or cream.

Tablets for making buttermilk  
from skim-milk at home are on  
sale in many places.

There's something crooked  
about the business of a corkscrew  
factory.

Female tramps are as objection-  
able as male ones. The world  
owes no one a living and inde-  
pendence should be the desire and  
will of all.

## APPALLING RECORD OF CARELESS DRIVING

12,500 persons were killed and 300,000 persons were injured in  
automobile accidents in the United States during the  
year 1921, and yet this appalling total seems  
likely to be exceeded in 1922.

In spite of the most extensive edu-  
cational campaign against railroad  
highway crossing accidents ever car-  
ried on figures just compiled by the  
Insurance Department of the Pen-  
nsylvania Railroad System show that  
in June, July and August of this  
year, such casualties increased 30  
per cent, as compared with last sea-  
son.

The period covered embraces the  
first three months of the National  
Careless Driving Campaign, in  
which railroads of the United States  
have joined in efforts to make plain  
the deplorable results of carelessness.  
During the three months, on the  
Pennsylvania System alone, there  
were 107 crossing accidents, in which  
71 persons were killed and 115 in-  
jured.

That this year's large increase in  
these casualties is chargeable almost  
entirely to growth in the reckless and  
inexperienced driving of automobiles,  
is shown by the fact that casualties  
at highway crossings, as compared  
with other causes combined, decreased.

There were 85 automobile accidents  
at Pennsylvania Railroad crossings  
in the three months in question. They  
caused the death of 56 persons, and  
injury to 107 others, or an average  
of two persons killed and injured  
for each accident. Twelve of the accidents re-  
sulted in 39 deaths; four caused the  
death of 20 persons, or an average  
of five for each car involved.

In two of the accidents, entire fam-  
lies were wiped out. That these lives  
were sacrificed to pure recklessness  
is particularly emphasized by the fact  
that in both instances the drivers of  
the cars lived close to the scenes of  
the accidents and were entirely fam-  
iliar with the lay-out of the rail-  
roads and roads over which they  
were driving.

The responsibility of automobile  
drivers for the safety of riders in  
their cars is no less than that of lo-

## Excellent Service For the Eastern Canada Trips

With the operation of the  
"Continental Limited" to and  
from the East, with the suitable  
branch connections, and also with  
the operation of the "National"  
from Winnipeg to Toronto, con-  
necting with all Ontario points  
the Canadian National Railways  
offers an unexcelled service for  
those who contemplate taking  
advantage of Eastern Canada ex-  
cursions this winter. The Sleeping  
and Dining Cars are now at a  
reasonable price and within reach  
of all.

The excursions to the East  
commence December 1st, when  
the Canadian National Railways  
will have on sale daily and up to  
January 15th, first class round  
trip tickets at single fare and one  
third from all stations Winnipeg  
and Emerson west in Manitoba,  
Saskatchewan and Alberta. Tickets  
will be good for 3 months from  
date of issue with certain  
stopover and extension privileges.  
18-12

## INTERESTING BOOKLET IS ISSUED BY RED CROSS SOCIETY

Every person who joins the  
Red Cross at the time of the cam-  
paign to be held in Alberta during  
the week of November 5 to 11  
will be helping to make Canadian  
citizens and to build a greater  
Canada. This is the fact that is  
emphasized in a twenty-four page  
pamphlet which has been issued by  
the Provincial Headquarters of the  
Society in Calgary.

Every person in Alberta should  
secure one of these booklets and  
learn for themselves just what  
the organization is doing. It  
points out the great work that is  
being done in the many different  
ways undertaken and any person  
cannot help but become interested  
in this Society if they only take  
the trouble to make themselves  
acquainted with the work that is  
being carried on.

This booklet is being sent to  
the Red Cross locals in all parts  
of the Province and also to the  
Campaign Committees. The Provin-  
cial Branch would like to see  
every person have one so if you  
are in a district where there is no  
Local of the Society or where  
a Committee has not been organ-  
ized write to Provincial Head-  
quarters in the O'Sullivan Block  
Calgary, and one will be sent you  
at once.

The work of the Society as a  
nation builder is not limited to  
among the various other activities  
told about are: Immigration  
Service, Relief at home, Relief  
Abroad, Our war Legacy, the  
children's home at Brickburn, the  
Disaster Service, Nursing and  
Hospital Service, Health Activi-  
ties, the Junior Red Cross, and  
the children's Hospital.

In most cases there's more fear  
than danger.

Don't skimp along without the things that are neces-  
sary to make you well dressed, but come in and supply  
yourself with the things you need.  
Do you need some warm, comfortable things for the  
little folks? We have just what you want; they cost but  
little.

Whatever you need in supplies, come to our store for it  
We sell only high grade goods and each department is full  
of new goods—the pick of the markets.

We sell Good Goods; we Price them right.

## Big Boys Pow-Wow

Saturday Next

Big Chief Statten and Wallace Forge Will Be Here on Saturday for Big Day With the Boys

All the boys from the neighboring towns are invading Wainwright next Saturday Nov. 4th, for one heap big grand Pow-Wow.

The Big Chief Taylor Statten of Toronto will be on the job from 10.30 a.m. to 7.20 p.m. Mr Statten is the National Boys Work Secretary of Canada and was largely responsible for the origination of the Canadian standard efficiency training program which is now so popular. The provincial secretary Wallace Forge will also be on deck.

Mr. Statten is now on his coast-to-coast tour and since he is spending only four days in Alberta we feel very fortunate in having him spend one of those days in Wainwright. In nearly all of the large cities of Canada the Rotary, Kiwanis, and Gyro clubs are getting actively behind this movement for better Canadian citizenship. We hope the town of Wainwright will be found in a prominent spot on the map in this respect.

We now wish to warn every father, prospective father, would be father and might be father in Wainwright to be prepared to be the guests of the boys for a noon luncheon on Saturday.

The city fathers are warned not to dare boys digging for a treasure in Main street. They will merely be looking for the treasure of gold stolen from the white men by the Indians and buried in 1847 somewhere where the town of Wainwright now stands.

## Local Notes

Mr. F. Laird was a visitor to the city for a few days, arriving back Thursday.

Mr. W. B. Jones, of the Edmonton Journal, staff was a visitor from the city over the week end, accompanied by his daughter Bertha. They were paying a visit to another daughter of Mr. Jones, Mrs. Ernest Wilson, of Heath.

From what we learn Mr. Frank Bell and Mrs. A. Devoson, his aunt will be leaving for the coast during this week.

Buy Black Diamond Coal and don't worry about the winter—Atlas Lumber Co., J. Welch, local agent.

It was a lucky escape which "Dad" Dunning experienced at the park last week, when he unfortunately got beneath the heels of a horse attached to a wagon. Although the animal kicked him on the head, it was not severe enough to cause "Dad" any inconvenience.

Mr. W. G. Bryant, of Edmonton, was in town over the week end, a guest of the editor.

Miss Jessie McClymont left on Monday for a visit with her friends and relatives in the east.

Owing to the illness of his wife in a city hospital, Mr. K. Lindseth took a run up to Edmonton last week end.

Get a load of Black Diamond to keep you warm these chilly nights. Joe Welch at the Atlas.

After a stay of a couple of weeks Mr. T. J. Sugars, of the British Petroleum left for the city on Thursday last. He expressed himself highly pleased at the progress made out at the new oil well belonging to that company.

Messrs Rowe and Bell journeyed to Edmonton on Friday via the "McLaughlin" route, making the journey in a little over six hours.

We understand that Mr. George Davis returns to his winter home at the coast some time this week.

We express sympathies to Mrs. W. Plaxton who was rushed to a hospital in Edmonton on Wednesday and operated upon immediately upon arrival there. We understand that she is progressing nicely now.

## PUBLIC NOTICE

TOWN OF WAINWRIGHT

Day Power Available

Notice is hereby given that on and after Tuesday, November 7th, Electric Power from the Utility will be available from Seven a.m. until Twelve noon upon each Tuesday and Wednesday morning.

If you are using electrical appliances you are requested to use the power between these hours, so as to relieve the pressure when electrical energy is required for lighting purposes.

UTILITY SUPERINTENDENT

## ANN. CONFERENCE

METH. MINISTERS

## ADJOURN SESSION

Women Again Lose Out In Fight For Admittance To The Methodist Ministry

Once again the women have lost out in their efforts to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee of the general conference decided against recommending their admission to the pulpits of the Methodist church.

There were three women on the committee and they put up a vigorous fight to allow the women to become pastors.

One of the arguments against women becoming ministers, advanced before the committee, was that it would tend to rob the cradle.

Of course in case some boy has been asleep for the past few weeks we wish to announce that every male of the genus homo between the ages of 12 and 18 is expected to do his duty next Saturday.

Come with an empty stomach and an open mouth and you will be assured of a good time. Dads don't be shocked if the boys make you lose your dignity on this occasion.

The programme will consist of everything from soup to nuts for the stomach and jax to grand opera for the lungs. It will be continuous from early morn to deely eve, interspersed by a medley of songs, stunts and games. Taylor Statten alone is worth walking a mile backwards to hear. The details of the programme are now in the secret confines of the committee, and when Allan Spence and Jack McLeod let them out—oh, boy! Let's go. Next Saturday, Nov. 4th.

We learn that a whist drive is now being arranged by the local chapter of the L.O.D.E. to be held in the near future.

## Homevisitors' Fares

To Central States

Special recognition is given to the former citizens of the United States this winter, by the Canadian National Railways in the form of reduced fares to the different cities of the Central Western States. These are called "Homevisitors' Fares". The name is suggestive of the fact that they permit American settlers in Canada to return for a holiday to their old homes.

In addition to those who return for sentimental reasons, there are many who still have business interests in the United States and who take advantage of these special winter fares. In making these low fares the Canadian National Railways has not lost sight of the fact that the benefits accruing therefrom are mutual. The successful settler is recognized to be the best possible colonization agent and those who return home to the Central States to tell of conditions in this country never fail to interest many of their friends. As a result of this year's Homevisitors' Fares, thousands of new settlers are expected to take up their abode in Canada next summer and the good work is bound to continue.

These Homevisitors' tickets will be on sale this year from December 1st to January 5th, 1923, having a final return limit of 3 months from date of sale. Tickets apply from all Canadian National stations in Alberta, Saskatchewan and points Hudson Bay junction to the Pas to following cities in Central States: Minneapolis, St. Paul, Duluth, Milwaukee, Chicago, Des Moines, Council Bluffs, Omaha, Fort Dodge, Sioux City, Watertown, Cedar Rapids, St. Louis, Kansas City, Marshalltown.

Miss Grant, corsetiere, of the Spirilla Corset Co., Edmonton was in town last week and appointed Mrs. D. Blain as local agent for their line.

## Shut Out Old Man Winter

Old Man Winter is due any day now. It's predicted that he will bring his usual allotment of snow and cold wind. If you don't want to spend the winter huddled around the fire, be sure you have a heater that will chase the chills out of every nook and corner of your living rooms.

## The McLary Heater

Will do this on the coldest day. Placed in a central part of the house it will heat three or four rooms. It is handsome in appearance, and is real easy on fuel. Let us show it to you.

WE HAVE IT

## Local Notes

We sympathize with Danny Evans who had to make a hurried trip to Edmonton on account of the illness of his little boy.

Upon receiving the news that his father was in a very low condition and that the old gentleman was passing away, Mr. Adolph Drager rushed to the city on Saturday's train.

On account of Mr. Fuller being the inspector to take over the Wetaskiwin school inspectorate, he will be leaving with his family in the near future. Both Mr. and Mrs. Fuller will be greatly missed after their two years' residence in town, and all will be sorry to see them go.

According to the official gazette, the Northern oil boom is about to commence. The Alberta Royalty Holdings Co. is among the list of newly incorporated companies, their head office is Wainwright.
